

# OZONIZER PLH-FW03

*Instruction manual*

# OZONIZER PLH-FW03 FOR FRIDGE AND WARDROBE

## SPECIFICATIONS

Ozone density:	About 4.0ppm
Anion output:	3million/cm <sup>3</sup>
Range:	"High" < 250L, "Low-grade" < 150L
Rated voltage:	DC 4.5V (3 pieces "AAA" batteries)
Power:	0.5 watts
Product weight:	0.16Kg

## FEATURES

An innovative device which utilizes ionic technology to generate ozone (O<sub>3</sub>) & anions to purify the air thoroughly<sup>1</sup>. This unit is a compact OZONIZER great for deodorizing and freshening in food storage containers, household storage boxes, closets, cabinet, wardrobes and small refrigerators.

1. Naturally eliminates odors without any cover-up scents or fragrance.
2. Neutralize stale and foul odors with fresh air inside refrigerators, closets, bathrooms and cars.
3. Particularly suitable for use in a refrigerator to keep food fresh for longer time.
4. Kill all kinds of bacteria avoiding growth of mildew.
5. Built-in micro CPU intelligently controls the operation cycle & mode by one touch and indicates with the colored LED.
6. Operation with 3 AAA batteries. Low voltage indicator reminds you when to replace batteries.
7. No costly filter to replace.
8. Very elegant and space - saving design.

## USE AND OPERATION INSTRUCTIONS

1. Remove the battery door on the back of the unit, install 3 pieces 'AAA' 1.5V high-quality alkaline batteries (purchase separately) according to the proper polarity. Close the battery door.
2. Once press the "POWER" button. You may hear the light sound 'ci-ci', the green LED power indicator flashes and keeps on every 2 second, indicating the unit is activated and working properly.
3. Thanks to the built-in microprocessor to control its automatic operating system, it works continuously for the first 30 minutes, then cycles on for about 1.5 minutes every 1 hour. When the unit in standby mode, the LED indicator flashes every 10 seconds.
4. Press the "POWER" button again to turn off the unit.

## NOTICE

When the red power indicator illuminates, this is the built-in low voltage indicator reminds you of replacing batteries.

## CAUTION

1. Avoid breathing ozone directly through the top of the unit's vent.
2. Remove the batteries if the unit is not in use. Batteries may corrode when the power is not turned on for extended periods of time.
3. Do not operate the unit in areas where flammable or combustible products or vapors may be present.
4. Keep the unit away from water.
5. Do not strongly shock the unit to avoid any slack of the interior parts of the unit.

## AFTER SALES SERVICE
