# CAPPUCCINO PERFECT

Special detergent for the cleaning of the milk frother

## APPLICATION

CAPPUCCINO PERFECT is a liquid detergent specially formulated for the cleaning of cappuccino maker components, steam spindle, milk container, etc. It has the purpose of removing milk fat residues and all organic deposits, keeping the entire circuit free from clogging and ensuring a perfect flowing of the milk, for an excellent foam result.

## PROPERTIES

CAPPUCCINO PERFECT is a blue-coloured, odourless liquid, easily soluble in water.

CAPPUCCINO PERFECT has a pH = 11, and Density = 1.14.

It contains:

- a calibrated mixture of surfactants and active components, useful for the effective removal of milk proteins deposited in the circuit.
- an effective dirt emulsifying and dispersing action.
- excellent limitation action over calcareous incrustations caused by hard water, thanks to the presence of specific sequestering agents.

## INSTRUCTIONS FOR USE

Prepare 1 liter of aqueous solution containing about 50 cc of CAPPUCCINO PERFECT. Insert the suction tube and have the entire solution absorbed. Drain and rinse having at least 1 liter of water run through.

## OTHER INFORMATION

CAPPUCCINO PERFECT has been classified as NON-HAZARDOUS product. For further information, see its Safety Data Sheet.

## PACKAGING

Cartons contain 15 1-liter bottles with dispenser.
