

DEGRAZYM

Enzymatic natural detergent for manual dishwashing

For manual dishwashing of cutlery and small equipment, compatible with all types of material. Removes all residues, even the most encrusted, in order to ensure perfect hygiene.

Advantages

- **Removes all organic residues**, even the most encrusted (grease, starch, proteins, etc), thanks to enzymatic action
- **Non-irritating** for staff and equipment at the recommended use concentration (neutral pH, no dangerous fumes)
- **Time saving** due to the soaking of the equipment (less manual action thanks to enzymes)
- **Prevents clogging** in pipes and drains
- **Positive impact on the environment** (discharge of pre-treated water)
- **Tested under dermatological control***

* By Eurosafe according to Directive 2000/33/CE (Annex 1 chapter B.40 «Skin corrosion») and the OECD n°439 guideline.

Fields of application

Suitable for :

- Manual dishwashing
- Surface cleaning
- Material and hood filter cleaning

Composition

98 % of the total ingredients are from natural origin

Components

- >30% water,
- 5-15% non-ionic surfactants
- <5% anionic surfactants, amphoteric surfactants, alcohols, solvents, salt, enzymes, SODIUM BENZOATE, sequestrant, acidity regulator, denaturant

Directions for use

MANUAL DISHWASHING

Recommended dosage: 0,15 to 0,35% depending on the degree of soiling

1. Fill the sink.
2. Clean the utensils and other small equipment.
3. Rinse with clean water and dry.
4. Place in the machine for disinfection if necessary.

MANUAL APPLICATION (hood, hood filters, surfaces,...)

Recommended dosage: 0,5% to 1% depending on the degree of soiling

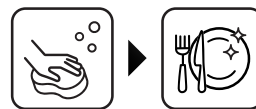

1. Fill a bucket or a sprayer.
2. Apply the solution on the surface to clean.
3. Leave on for 5 to 15 minutes.
4. Rinse with clean water and dry.
5. Then disinfect the surface depending on the application.

To save water and energy by washing efficiently, immerse the dishes in water instead of washing with a jet from the tap and stick to the recommended product doses. Efficient washing does not require lots of foam.

Temperature

35-55°C maximum

Action

Concentration

Dishwashing: 0,15 to 0,35%

Manual application: 0,5 to 1%

Contact time

Manual application: 5 to 15 minutes
