

# REASEC 10

## Rinsing liquid for automatic dishwashers

Reasec 10 is a concentrated rinsing and drying agent recommended for porcelain, earthenware, stainless steel, silverware, aluminium, glass and easily wettable plastics. Developed for tunnel washers and hood dishwashers, the product is compatible with the new generation of economical soft water dishwashers.

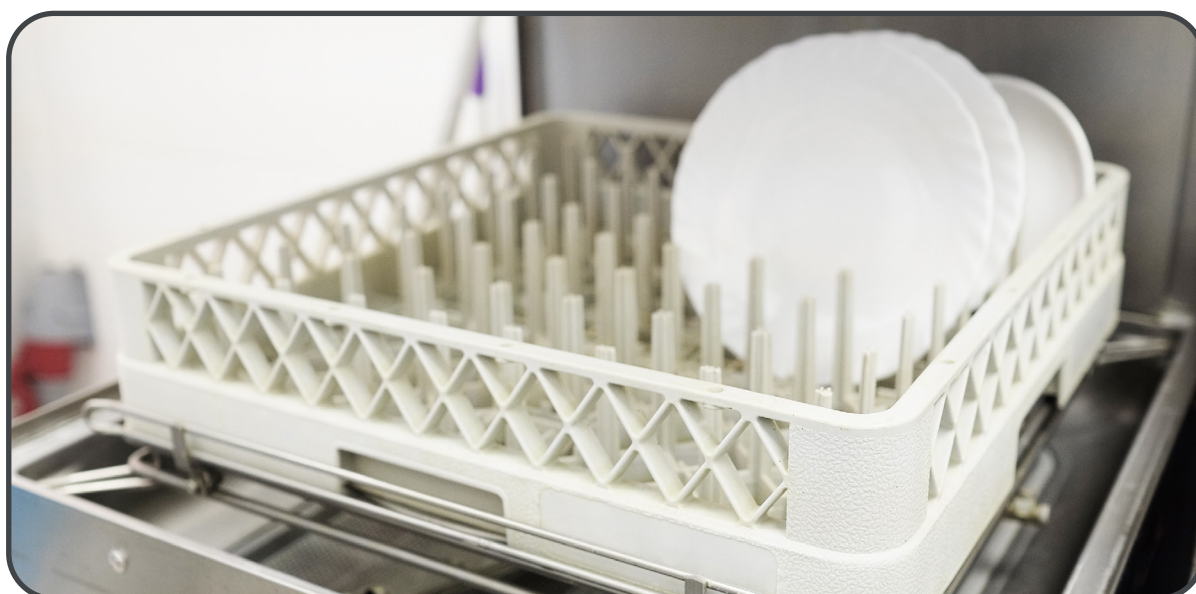

### Advantages

- **Improved drying performance**
- **Recovers the gloss** of the materials
- **No streaking or staining**
- **Non-foaming** (prevents excessive foaming)
- Economical dosage due to **concentrated formula**
- **Not classified**
- Biodegradation rate > **99%** in 28 days (OCDE 302B)

### Fields of application

Suitable for:

- Hood dishwasher
- Tunnel washer

## Instructions for use

### AUTOMATIC APPLICATION

Dosage: 0.2 to 0.5 g/l depending on the water quality and the materials to be dried.

Product to be dispensed using a suitable dosing device in the rinsing water supply.

### Temperature

80-90°C maximum

### Action

© A.I.S.E.

### Concentration

0.2 - 0.5 g/l

### Application time

/
