

# Gasket Care

## Professional cleaner for gaskets and refrigerators

Gasket Care is an innovative sanitising detergent based on amphoteric surfactants and natural raw materials. It cleans and sanitises gaskets and interior and exterior surfaces of refrigerators and freezers in a single procedure.

Gasket Care is effective against gram-positive and gram-negative bacteria and a broad spectrum of micro organisms.

Gasket Care has a strong non-toxic residual microbicidal power that continues even when other conventional products no longer act.

It is non-corrosive on metals and has a strong degreasing action combined with easy rinsing. Can be used on rubber, plastics, aluminium and soft metals.

### Advantages

Environmentally friendly and completely biodegradable.

Non-toxic, non-corrosive.

Non-irritating to skin and mucous membranes.

Broad spectrum of action (effective against germs, bacteria, fungi and viruses).

Long residual action even in the presence of organic matter.

Excellent deodorising action.

### Instructions for use

For cleansing and sanitising treatment use as it is, then wipe with cloth or sponge.

### Precautions

Irritating to eyes.

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Keep out of reach of children.

### Chemical and physical data

PH: 7 ca

Status: liquid

Colour: colourless

Odour: characteristic

Formats: bottle 1000ml

### Ready-to-use
