

ECO CREAM 014

Eco-friendly - hypoallergenic - clinically tested

Specifically designed for:

- cooking charred scales and cooking residues
- organic stains like coffee, tea and wine
- paint stains
- silicone residues
- permanent ink marks
- tire scrapes
- make-up and nail polish smears
- rust and metal oxidation strains
- paint dots and streaks on untreated raw cotto tiles
- black mold and algae on synthetic resin pool borders and surfaces

Instructions for use:

Best when used with a compact sponge.

Apply the detergent to a moist sponge and gently press on the dirt. After cleaning rinse the sponge carefully. For metal oxidation please use a scourer sponge.

Fully HACCP-compliant, an all kind of surfaces detergent.

Composition: (Reg. CE 648-2004) Anionic surfactants <5%; coloring and preservative free.

Caution: Avoid contact with eyes. Keep out of children's reach. Handle with care on perspex, varnished and polished surfaces.
