## **Sanitary Cleaner EASY TO CLEAN**

The cleaner contains acid and solves impurities from acid-resistant surfaces.

### **Fields for application:**

For all acid-resistant surfaces like washbasins, mountings, synthetical surfaces, shower and bath tubes, WC/urinals and wall- and floor-tiles.

### **Properties:**

- EASY-TO-CLEAN-effect reduces new impurities.
- Manual cleaning possible.
- Do not affect mountings.
- Deposits of chalk, rests of soap, fatty impurities, urine and his depositions can be solved easily.

### **Application:**

For manual application take 30 mL of the concentrate and mix it with 8 L of water.

For spraying mix 15 mL of the cleaner with 0,5 L of water. Do not apply the product on mountings directly. Use a tissue to spread the product on the mountings.

For strong adherent dirt or for use as a WC-cleaner you can also make use of the concentrate.

# TECHNICAL DATA SHEET

## Technical data:

Chemical basis	Sulfamic acid
Odor	Parfume, specific smell
Color	red
pH-value	1 (concentrate)
Density	1.0486 g/cm <sup>3</sup>
Best before Date	36 months
AOX-free	Yes
Silicone-free	Yes
Bio-degradable	Yes

## Remarks:

Do not use for natural stones bonded with chalk (marble, travertine, ....). Do also not use for aluminium, lacquered surfaces and acryl glass. Check the compatibility of materials for application on a far site. Flush the surface after application with water.
